## DISTRACTION

Distraction is inspired by art and embodies elegance and luxury. Tanned in Sweden using a proprietary tanning process designed to give the leather a rich, buttery hand. Finished in Italy, Distraction has a light tipping effect added to accentuate the slight bubble grain. A subtle two-tone is the final touch, giving Distraction a sophisticated appeal. Protected with a water-based topcoat, making Distraction perfect for high-traffic areas. Appreciate characteristics such as scars, belly wrinkles, scratch marks, and insect bites, which are signatures only genuine leather can exhibit.
