

ROAD WARRIOR

Everyone loves a natural leather with a wax tip but we all like the durability of a protected leather. Road Warrior is designed to give the look of a wax tipped leather without the color variation or staining. The tipping process adds the brightness to the surface and the contrast to the leather but is achieved with pigments and leather agents that provide protection along the way. Natural marks such as healed scars will retain a darker appearance mimicking the look of a true waxed leather. Road Warrior's design is taken from a natural wax leather that is made to perform.
